Dear all

Please find information on two research posts at the Centre for Transport & Society, [University of West of England](#) send by Erel Avineri

Apologies for cross-postings.

Two Senior Research Fellows in Transport and Society - Closing date: 27/11/09

As part of continued strategic investment in transport research at UWE, the Centre for Transport & Society (CTS) is now looking to make two Senior Research Fellow appointments.

Each post is for three years in the first instance. Salary: £35,469-£44,930 (pay award pending).

We are seeking highly capable and motivated individuals who share our interest in combining expertise in transport and social science.

The successful applicants will play an important part in pursuing new research initiatives on behalf of CTS. This is an exciting career opportunity for individuals who wish to develop their research leadership skills and to make a significant contribution to the ongoing success of a thriving research centre.

Since being founded in 2002, CTS now has a team of some 25 staff and research students. Strong performance as part of the UWE submission to the 2008 Research Assessment Exercise positions 'transport and society' as one of the leading research areas in the University. These appointments are intended to consolidate and extend the strengths of the CTS team and ensure our reputation for thought-provoking, policy-relevant and internationally recognised research is further enhanced. We can offer a friendly, cohesive and lively research environment to the successful applicants.

It is not our intention to define each of the posts in terms of a disciplinary label however we could envisage appointing individuals according to their strengths in one or more of the following: sociology (mobilities), social-psychology, environmental psychology, transport geography, social informatics, science and technology studies, behavioural science, political science, mathematics and statistics, or transport planning.

The successful applicants can expect to be focusing in particular on the development of proposals for the Engineering and Physical Sciences Research Council, the Economic and Social Research Council, the Technology Strategy Board, the Department for Transport or the European Commission.

For an informal discussion please contact Professor Glenn Lyons (Glenn.Lyons@uwe.ac.uk). The closing date for applications is Friday 27 November 2009.

To obtain further details about the posts and an application form please visit www.transport.uwe.ac.uk.
