Post-doctoral Research Associate

(18 months Fixed Term)

Salary: £31671 to £35646 pa

We have an opening in the Cognition and Communication Research Centre, Northumbria University, working on an ESRC grant awarded to Professor Kenny Coventry and Dr. Colin Hamilton investigating the mapping between spatial and non-spatial demonstratives and the vision and action systems.

You will undertake and complete a programme of research, recruiting and testing participants, analysing data, preparing reports for publication and facilitating impact activities. You must have a doctorate in one of the cognitive sciences (e.g. experimental psychology), have sound knowledge of experimental methodologies in psycholinguistics, and be familiar with research on the mapping between language and perception.

The Cognition and Communication Research Centre has extensive laboratory facilities, including a new fully immersive VR lab (with eye tracking capability), four eye trackers (Eyelink II, Eyelink 1000, Tobii & ASL), a 128-channel BioSemi EEG/ERP lab, and access to 3T-fMRI through Newcastle University. The candidate will join a dynamic research group, and will be expected to contribute to activities in the centre as well as working on the grant.

For further details or informal discussion about this post please contact Professor Kenny Coventry, Director of the Cognition and Communication Research Centre, on +44 (191) 243 7027. kenny.coventry@northumbria.ac.uk.

To download an application form, please visit http://www.northumbria.ac.uk/vacancies

or call us on +44 (191) 227 4321 for an Application Pack. Application forms plus full CV should be emailed to staffcareers@northumbria.ac.uk by the closed date of 3rdDecember.

Northumbria University is an equal opportunities employer and welcomes applications from all sectors of the community.

Closing Date: 3rd December Selection Date: 17th December
